Streamline Your Sales Process with Smart Deal Management

Track every deal from first conversation to closed-won, all in one place. HubSpot gives you real-time visibility into your pipeline, helping you reduce slippage and keep deals moving forward.

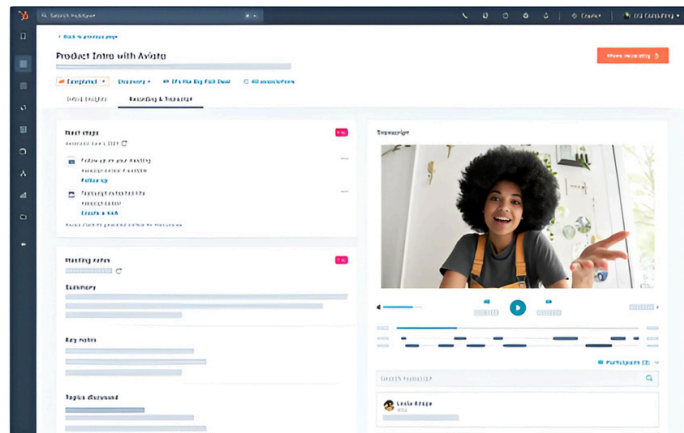

Use AI-powered deal scoring, forecasting, and proactive alerts to stay ahead of risks and confidently predict revenue outcomes.

Progress Deals Faster with AI-Powered Meeting & Data Tools

Stop wasting time on prep work and manual tasks. With AI meeting assistance, your reps are prepped with context before calls and supported with summaries and follow-ups after.

Feed call insights into your CRM, unlock coaching opportunities, and customize your pipelines with automation, approvals, and validation rules to enforce process and speed up cycles.

Close More Deals with a Guided Selling Workspace

Help your reps focus on the right opportunities at the right time. Sales Hub surfaces buyer intent, engagement signals, and next-best actions so reps can prioritize deals that matter most.

With AI-generated summaries and a centralized workspace, reps can manage target accounts, leads, and tasks in one intuitive view—and spend more time closing.
